MENTORING EXPERIENCE

Graduate Research Programs

- WPI Graduate Independent Studies Project Jan - Present, 2024
Supervised a graduate research project on discrete quantum walks.

Undergraduate Research Programs

- WPI STAR Summer Research Training Program May - Aug, 2024
Supervising an undergraduate research project on continuous quantum walks.
- Fields Undergraduate Summer Research Program Jul - Aug, 2020
Co-supervised an undergraduate research project with Ada Chan on Laplacian fractional revival at the Fields Institute. This results in two papers [6] and [7]. One student was awarded the Book Prize by the Fields Institute.
- University of Waterloo May - Aug, 2018
Mentored one undergraduate student under the supervision of Chris Godsil. The student extended my results in the paper [10], and developed the theory of a new quantum walk called the vertex-face walk. This leads to the joint work [19].
