## Supervision Experience

### **Undergraduate Research Programs**

- Fields Undergraduate Summer Research Program

  Jul Aug, 2020

  Co-supervised an undergraduate research project with Ada Chan on Laplacian fractional revival at the Fields Institute. This results in two papers [6] and [7]. One student was awarded the Book Prize by the Fields Institute.
- University of Waterloo

May - Aug, 2018

Mentored one undergraduate student under the supervision of Chris Godsil. The student extended my results in the paper [10], and developed the theory of a new quantum walk called the vertex-face walk. This leads to the joint work [19].
